Dear Warren Munroe:

I am in receipt of your message dated April 9 and your follow-up message dated April 12. I have also reviewed the material you have provided.

We recognize that you have concerns regarding the accuracy of the data provided in 2005. However, Elections BC accepted the data supplied by BC Stats and the associated contract with BC Stats has been closed for several years.

Elections BC will not engage in mediation and dispute resolution with your former employer as we consider this matter to be a personnel matter between you and BC Stats, regardless of the data file that may have precipitated any dispute.

Regards,

Amie Foster
